A)Theory Subject with or without Practical component:

It is broken into various components as mentioned below;

- i) **Internal Assessment (IA)** – It will be carrying 20% weightage and shall be monitored based on parameters like, assignments, class tests, seminars, project, oral examination etc. and that the break-up of weightage to these parameters are as specified in the syllabus of the given course/programme.

16. Model Credit-Grade System

As per the guidelines suggested by UGC, for the central, state and deemed universities in India, it is now mandatory to adopt credit system in place of conventional system comprising of marks and grades for all the undergraduate programs. The central idea of the system is that a student has to earn a prescribed minimum number of credits to fulfill the requirements of graduation. The credit system has to be designed uniformly together with a suitable continuous evaluation and a well-articulated system of grading.

Course Credits (C):-

It is the unit of measurement of course works. Each course shall have an integer number of credits which reflects its weightage. One credit means one period of one hour duration.

The number of credits of a course in a given semester shall ordinarily be calculated as under:-

$$\text{Number of Credits} = L + T + P/2$$

Where L, T and P represent the number of Lecture, Tutorial and Practical hours per week. The fraction is to be rounded off to next integer value. One practical/Lab. without theory of one hour equal to One Credit.

Grade (G):-

It is the measure of performance quality. At the end of the each semester, a student is awarded a letter grade in each of his/her courses taking into account his/her performance based on the various components of evaluation i.e. on the basis of total marks (ESE+ Practical + Internal Assessment) in theory subject having practical component and total marks (ESE + IA) obtained in theory subject without practical. There are eight letter grades as O,A,B,C, D,E,F and X as shown in **Table 2**

Grade Points (GP):-

The letter grades are converted to figures to indicate performance of the students. The following are the guideline steps for the computation of grade points:

- i) All evaluations of different components of a course specified in the course plan i.e. scheme shall be done in marks for each student.
- ii) The marks of various components of Internal Assessment and university conducted examination i.e. ESE shall be added to get total marks secured for the given course. For example, out of a total of 100 marks for theory subjects.
- iii) These letter grades are assigned numerical equivalents called Grade Points, **GP** on a 07-point scale and are correlated with percentage score of the student in the given course as shown in the **Table 2** given below.
- iv) For the given course, the adopted criteria of percentage marks given below shall then be used for the computation of grades and grade points.
- v) “**F**” grade stands for failure in that course examination. The course(s) in which a student has earned F-grade will be termed as back-log i.e. course(s) under ATKT. Such a student will be required to reappear in the given course examination as per the specified provision.

- vi) “X” grade is awarded to a student who is absent in the examination or is not allowed to appear or could not appear in end semester examination (ESE) in a particular subject due to any reason, though he might have undergone other components of Internal Assessment, Practical etc. Such a student will be required to reappear in the given subject in which he/she has secured X –grade.

Table 2: Criteria for Award of Grades

Grade	Percentage score, X	Grade Points
O	75 -100	07
A	60-74	06
B	55-59	05
C	45-54	04
D	40-44	03
E	35-39	02
F	0-34	00
X	Absent in Examination	---

Credit Points (CP):-

Credit points stands for performance of student in a particular subject. They are product of total credits of a subject and grade point secured by the student in the given subject.

Semester Grade Point Average (SGPA) :-

It is indicative of performance of a student in the given semester. The Grade Point Average for a semester is obtained by adding the products of Actual Grade Points and relative weightages for different subjects as shown in the course scheme for respective semester and dividing the total by the total credit hours for that semester as illustrated below.

$$SGPA = [C_i G_i + C_{ii} G_{ii} + \dots + C_n G_n] / (C_i + C_{ii} + \dots + C_n)$$

Where, C – No of Credits of individual subject.

G – Corresponding grade point obtained in the respective subject.

Cumulative Grade Point Average (CGPA) :-

The Cumulative Grade Point Average (CGPA) is indicative of the overall academic performance of a student in all the subjects registered up to and including the latest completed semester. It is the cumulative total of the products of actual grade point and its weightage upto last semester divided by total credits of all the semesters.

$$CGPA = \frac{\sum_{i=1}^n c_i g_i}{\sum_{i=1}^n c_i}$$

17. A student who PASSES in the Internal Assessment (IA) and Practical (P) but FAILS in the End Semester Examination (ESE) of a subject shall reappear for the ESE of the given subject. However, his/her marks of the IA and P shall be carried over and he/she shall be entitled for grade obtained by him/her on passing of the end semester examination of the given subject.
18. A student who FAILS in the IA or P or both but PASSES in the ESE of a subject shall submit and reappear for the IA or P or both in the form of project/s for that subject. However, his/her marks of the ESE shall be entitled for grade obtained by him/her on qualifying in the internal evaluation.
19. The Evaluation for students who fails in Internal Assessment (IA) and Practical (P) shall consist of one project having weightage as specified in the course and examination scheme given by the concerned teacher based on the prescribed curriculum. In the case, the marks for the IA or P or both shall be forwarded by Principal/Head of the Institution to the Affiliating University as per the schedule.
20. If a student is permitted to repeat any semester/course, the new letter grade will replace the old letter grade in the computation of the SGPA and further that every student will have only one grade-sheet for every semester and the last semester grade-sheet to indicate CGPA based on the adapted criteria for the Award of the Degree.

2. This Direction shall come into force with effect from the date of its issuance.

3. Need for academic reforms in Indian Higher Education :

a) In the knowledge based society, quality of higher education is of prime importance. There are many concerns about the quality of education imparted to the learners and its overall impact on the development of the nation. In the existing system lack of flexibility in the curriculum and absence of comprehensive national framework for facilitating mutual give & take of the academic programs offered by different higher education providers is the main lacuna. It is the need of time to give serious re-look at the existing systems & introduce reforms wherever possible.

b) Recommendations of National Regulating authority:

The University Grants commission(UGC)NAAC, Distance Education council(DEC) & National knowledge commission(NKC) have suggested the recommendations to improve upon the quality & effectiveness of higher education in the country. It is the need to develop a choice Based credit system(CBCS) in tune with global trends & adaption of grading system for learner performance. Today, there is a need for fully convertible credit based system, acceptable to other universities.

All the major higher education providers across the globe are operating the systems of credits.

c) **The concept of CBCS in brief :** CBCS essentially redefines the curriculum into smaller measurable entities of modules/units with the hours required for studying/learning. The mechanism is to be developed to combine these modules in different ways so as to quality for a given Programme. The learner is at the center of all academic transactions.

d) **Need for Introduction of CBCS :** The features highlighted by UGC are: Enhanced learning opportunities, ability to match learners' scholastic needs and aspirations, inter university transferability of learners (after completion of semester) allows part completion of an academic Programme in the Institution of enrolment & part completion in other (recognized) institution. This scheme provides improvement in educational quality and excellence, flexibility for working learners to complete the programme over an extended period of time, standardization and compatibility of educational programmes across the country.

e) Advantages of Credit System:

- Shift in focus from teacher-centric to student- centric education, since the workload is calculated on the time spent in learning, and not in teaching.
- Helps to record work and document learner workload.
- Helps self-paced learning.
- Allows more flexibility to the learners to choose the programs.
- Respects "Learner Autonomy". Allows learners to choose according to their own learning needs, interests and aptitudes.

- Makes education more broad-based. One can take credits by combining unique combinations.
- Facilitates learner mobility. Offers the opportunity to sliding at different times and in different institutions. Credits earned at one institution can be transferred to another.
- Is beneficial for achieving more transparency and compatibility between different educational structures.
- A credit system can facilitate recognition procedures as well as access to higher education for non-traditional learners.

f) Scientific approach to implementation:

To implement the credit system, a scientific approach has to be adopted for the benefit of the learner.

4. In this Direction, unless the context otherwise requires:-

- 1) **Academic Year :** Two consecutive (one odd + one even) semester constitutes one Academic year.
- 2) **Choice Based Credit Systems (CBCS) :** The CBCS provides choice for students to select from the prescribed courses (core, elective or soft skill courses).
- 3) **Course -** A course is essentially a constituent of a *Programme*. The course should define learning objectives and learning outcome. A course may be designed to comprise lectures / tutorials / laboratory work/ field work/ outreach activities/ project work/ seminars / term papers/ assignments/presentations / self-study etc. or a combination of some of these.
- 4) **Credit –** A unit by which the course work is measured. It determines the Number of hours of Instructions required per week. One credit is equivalent to minimum of 30 to 40 hours of learning.
- 5) **Credit point –** It is the product of grade points & number of credits for a course.
- 6) **Grade point –** It is numerical weight allotted in each letter grade on 10 point scale.
- 7) **Letter grade –** It is an index of performance of students in a said course. Grades are denoted by letters.

5. (i) The following shall be the examination leading to the Degree of Bachelor of Science in the Faculty of Science and Technology.

Evaluation of Internal Assessment

The internal assessment marks assigned to each theory paper as mentioned in Appendix-A and B1-B2 shall be awarded on the basis of following parameter. Each BOS shall have right to decide the distribution of marks for internal assessment but there should be separate evaluation for each theory paper. Internal assessment shall be done by University approved teacher in relevant subjects. Internal assessment shall be done by the respective college one month prior to the final exam of each semester. The marks shall be sent to the university immediately after the internal assessment is over.

Internal assessment parameters

- Class test/multiple choice question objective/open book test/unit test etc.
- Home assignments/case study/quizzes/group Discussion.
- Attendance
- Seminar or project etc.
- Industrial visit/field work/visit to research Institute.
- Active participation in routine class instructional deliveries i.e. case
- Overall conduct as a responsible student, skill in articulation, leadership qualities expressed in co-curricular activities etc.

Note:1. The concerned teacher shall have to keep the record of all the above activities till the passing out of that batch.

2. At the beginning of each semester, every teacher shall inform his/her students unambiguously the method he/she proposes to adopt a scheme of marking for the internal assessment.

3. Teacher shall announce the schedule of activity for Internal Assessment in advance in consultation with HOD/ Principal.

Semester Grade Point Average (SGPA): It is the measure of performance of work done in a semester. It is the ratio of total credit points earned by a student in various courses registered in a semester & the total course credits taken during that semester.

Cumulative Grade Point Average (CGPA): The CGPA is the ratio of total credit points earned by a student in various courses in all semester and the sum of total credits of all courses in all semester.

Types of Courses –

Courses in a Programme may be of three kinds: Core, Elective & Foundation.

1. Core course: This is the course which is to be studied compulsorily by a student as a core requirement of a Programme in a said discipline of study.

2. Elective Courses:

Elective course is a course which is to be chosen from a pool of paper, it may be

- Supportive to the discipline of study.
- Providing an expanded scope.
- Enabling learner to get an exposure to some other discipline / domain
- Nurturing students' proficiency /skill.

An Elective may be generic elective, focusing on those courses, which add generic proficiency. *An elective* may be discipline centric or may be chosen from an unrelated discipline. It may be called *Open Elective*.

3. Foundation Course:

May be of two kinds: *Compulsory Foundation (Ability Enhancement Compulsory Course)* & *Elective Foundation (Skill Enhancement Course)*. Compulsory foundation is those courses based upon contents that leads to knowledge enhancement. They are mandatory for all disciplines. Elective foundation courses are value-based & aimed at man- making education.

Total Credit for all the Semesters will be 132 for B.Sc. programme

Note: Non Practical Courses (Subjects) credit will be calculated on theory only

Assigning course-wise credits: Steps for implementation:

1. General Overview :-

The value of a particular course can be measured in number of credit points. The value of one credit may be equal to 30 to 40 hours of learning.

The scheme of examination is divided into 2 parts: internal assessment and external assessments (Semester End Examination).

Internal assessment includes: Assessment, Seminars, Case studies, Quizzes, Viva, Unit test etc.

The semester wise credit points earned by learner for under graduate Programme shall be of 132 credits.

Programme	Sem I	Sem II	Sem III	Sem IV	Sem V	Sem VI	TotalCredits
Under Graduate	26	26	20	20	20	20	132

2. Credit based evaluation system:

Scheme of examination:-

It is divided into two points: Internal assessment & external assessment (semester end examination conducted by university). Internal assessment includes: Assessment, Seminars, case studies, Quizzes, Viva, Unit test etc.

The Semester End Examination for each course with practical will be as follows

One theory course of two papers: 100 marks (External assessment- University examination)

20 marks (Internal assessment)

Total 120

One practical course: 30 marks

(Practical Examination for Odd Semester will be at college level and for Even semester at university level with external examiner)

Passing standard and performance Grading –

The term 'Pass' means minimum 'D' grade or above in point grade scale 'Fails' means grade 'F' in the grade scale.

The learners to 'pass' a course shall have to obtain minimum of 40% marks in each course (external evaluation + internal evaluation together)

Grades and Grade points.

Letter Grade	Grade Point	Percentage of Marks
O (Outstanding)	10	91-100
A+ (Excellent)	9	81-90
A (Very good)	8	71-80
B+ (Good)	7	55-70
B (above average)	6	50-54
C (Average)	5	40-49
D (Pass)	4	40
F (Fail)	0	0 to 39

Calculations of CGPA & SGPA

Semester Grade Point Average (SGPA) – each semester grade point average is calculated by dividing the total of product of grade point and course credit by sum of all course credits in a semester.

$$\text{SGPA} = \frac{\sum CG}{\sum C} \quad \text{for a given semester}$$

G – Grade, C is credit for paper / course

Cumulative Grade Point Average (CGPA) for entire course

$$\text{CGPA} = \frac{\sum CG}{\sum C} \quad \text{for all semesters taken together}$$
